

nice touch

Honeywell's sleek, sophisticated 6270 TouchCenter contains added touches that go beyond the conventional keypad. Even the most advanced functions are a snap, with graphics and menu-driven prompts guiding the user every step of the way. And it's so affordable, you can offer it to all of your residential and commercial customers. No other keypad can touch it.

Honeywell

TouchCenter is compatible with the ADEMCO VISTA-15P, 20P, 128BP, 128FBP, 250BP and 250FBP control panels.
