

Protect what you value most...

...the security of your
financial institution.

Honeywell

Protect what you value most...

Crime and fraud are the greatest business challenges facing financial institutions today. We can help you create the most secure environment possible—providing you with a wide range of round-the-clock security solutions, including the ability to protect your safes, private records, vaults and ATM machines and control and restrict personnel and visitor traffic.

Honeywell understands your unique requirements. We are equipped to meet the security challenges that exist in financial institutions, and can provide you with the most sophisticated technology available to help safeguard your cash, assets, customers and employees.

Sophisticated, Simple Solutions

Honeywell systems combine the most advanced technology with simple employee operation, providing solutions that help safeguard your business against the threat of crime, fire and other hazards. There is no need to install multiple systems—you can have intrusion, fire, access control, hold-up and CCTV in one flexible, upgradeable system.

- Quickly respond to emergency situations with the proper notification devices
- CCTV and networked digital video systems and software provide remote viewing and integrate monitoring capabilities for use in observing branch exits, lobbies, teller lines, ATM machines, vaults, server rooms and high security areas
- Control an individual's access to valuable assets and inventory based on job function, time or location
- Round-the-clock central station monitoring—24 hours a day, 7 days a week
- Monitoring via radio or over the Internet
