Good News! Important - Honeywell AlarmNet-M Network Service Extension and Associated Radio Manufacturing

Previous notification about the AlarmNet-M network service extension had indicated that it would be extended beyond March 31, 2008, but didn't provide additional information. This update is to inform you that the AlarmNet-M network will continue for the foreseeable future as United Wireless Holdings, Inc. (new owners of the Velocita network sold by Sprint) affirmed their intentions with Honeywell in late 2007. What this means is that AlarmNet will not only continue to provide its AlarmNet-M service into the future but will also continue to manufacture and supply AlarmNet-M (Part number 7830R) radios.

If you require additional information please call 1-800-222-6525, Option 1, and then Option 3.
Thank You for your continued support of Honeywell products and services.
