# Protect what you value most...

You can work a lifetime building your business. Make sure you spend enough time choosing the right security system to watch over it. According to statistics, businesses without alarm systems are more than four times as likely to be broken into than those that do, and jewelry establishments are especially vulnerable. With shoplifting and employee theft costing American businesses in excess of \$50 billion a year, loss prevention is more important than ever. Successful retailers recognize the value in creating a secure environment for their employees and their enterprise.

## Sophisticated, Simple Solutions

Honeywell systems combine the most advanced technology with simple employee operation, providing solutions that help safeguard your jewelry store against the threat of crime, fire and other hazards.

There is no need to install multiple systems—you can have intrusion, fire, access control and CCTV in one flexible, upgradeable system.

- Protect display cases, safes and vaults
- Protect all types of glass to deter “smash and grab” incidents
- Protect your inventory, customers and employees
- Mount holdup switches under counter for inconspicuous operation
- Summon emergency personnel with the touch of a button
- Round-the-clock central station monitoring—24 hours a day, 7 days a week
