

Protect what you value most...

...the security of your  
medical office.

**Honeywell**

# Protect what you value most...

You can work a lifetime building your medical practice. Make sure you spend enough time choosing the right security system to watch over it. We can help you create the most secure environment possible—providing you with a wide range of security solutions, including the ability to control and restrict personnel and visitor traffic.

## Sophisticated, Simple Solutions

Honeywell systems combine the most advanced technology with simple employee operation, providing solutions that help safeguard your medical practice against the threat of crime, fire and other hazards. There is no need to install multiple systems—you can have intrusion, fire, access control and CCTV in one flexible, upgradeable system.

- Protect your property and employees with intrusion, fire and smoke detection equipment, panic buttons and other notification devices
- Safeguard private medical records, hazardous waste, pharmaceuticals, procedure rooms, expensive equipment and assets
- Control an individual's entry based on job function, time or location
- Round-the-clock central station monitoring—24 hours a day, 7 days a week
