

Protect what you value most...

...the security of your restaurant.

Honeywell

Protect what you value most...

You can work a lifetime building your business. Make sure you spend enough time choosing the right security system to watch over it. According to statistics, businesses without alarm systems are more than four times as likely to be broken into than those that do. With employee theft costing American businesses in excess of \$50 billion a year, loss prevention is more important than ever. Successful restaurateurs recognize the value in creating a secure environment for their employees and their enterprise.

We understand that managing a restaurant requires special consideration for kitchen facilities, refrigeration, storage and storefront dining rooms, and we are prepared to address your unique concerns.

Honeywell systems combine the most advanced technology with simple employee operation, providing solutions that help safeguard your restaurant against the threat of crime, fire and other hazards. There is no need to install multiple systems—you can have intrusion, fire, access control and CCTV in one flexible, upgradeable system.

- Protect your employees, customers and property from intrusion and theft
- Respond to fire with smoke detection systems that offer reliable protection and comply with stringent fire codes
- Control access to valuable assets and inventory
- Round-the-clock central station monitoring—24 hours a day, 7 days a week
